

EVIL GLOBALISM

August 31, 2024

If enemies of God so seem to prevail,

It's only because His friends, in praying, fail.

In his book, now censored, *"Conspirators' Hierarchy: the Story of the Committee of 300,"* Dr. John Coleman (born 1940), who has long studied the criminal rulers of the modern world, presented a list of 20 means by which they mean to force upon the world their New World Order. The interest for Catholics is to recognise, if they have not yet done so, just how criminal are our real rulers today, who control our puppet governors but are themselves hidden from public view. Catholics must realise with what cunning and co-ordination the globalists operate, and how close they are to achieving their totally godless aims. God will not let them finally conquer, but He will let them put us through the severe trial which they show that we deserve –

1. To erect a One World Government with a single Church and a single money-system, under their control.
2. To destroy completely all sense of national identity and pride in one's nation, since only so will men accept a World-Government above all nations.
3. To destroy all religion, especially the Christian religion, with one exception: their own new "religion."
4. To establish thought control techniques so as to create human robots controlled from outside.
5. To stop all industrialisation, except for the computer and service sectors. What is needed is a "Post-industrial no-growth society." Industry needed can be outsourced to inexpensive Third World countries.

6. To promote the consumption, even legalisation of drugs, and to turn pornography into an art form, so as to make it widely accepted and even seen as normal.

7. To depopulate big cities, on the model of the Pol Pot massacres in Cambodia.

8. To suppress all scientific development, unless it serves the purposes of the globalists.

9. To bring about the death of 3 billion people by 2050 either through "limited local wars" in the developed countries, or through hunger and sickness in the undeveloped countries. For instance, the US population must be brought down to 100 million by 2050.

10. To weaken the morals of the people and further demoralise the working classes by unemployment. Youth must be encouraged by means of drugs and wild music to rebel against the status quo, which will lead also to the weakening and dissolution of the family.

11. To make people unused to deciding their own fate by exposing them to one crisis after another. People must feel so overwhelmed by the decisions needed to decide their own fate, that they become apathetic.

12. To introduce new religious cults, and to promote the cults already existing.

13. To promote Christian Fundamentalism, which sees the Zionist State of Israel as "God's Chosen Race," so that Israel gets support with, amongst other things, huge sums of money.

14. To push for the spread of extreme religious sects like the Muslim-Brotherhood and the Sikhs and to perform thought-control experiments, as Jim Jones did in his death camp in Jonestown in 1978.

15. To bring about a collapse of the world economy, and

therewith total political chaos.

16. To take control of all national and international policies of the USA.

17. To give the greatest support to Supranational Institutions like the UN, IMF, the Bank of International Settlements in Basel, the International Court in The Hague, while national institutions are weakened.

18. To infiltrate and take over all governments, so as to dissolve the supreme rights of each single nation.

19. To create an international terrorism, and to negotiate with any terrorists who have actually acted.

20. To take control of all educational institutions in the USA, so as to ruin them completely.
