

Godless Governments – II

August 14, 2021

Readers may remember from these “Comments” last week the article of a British patriot, Dennis Whiting, in which he denounced the British Government for organising lies in order to run the country, especially but not only, in connection with the Covid nonsense. To call it “Covid nonsense” is not of course to deny any reality to the Covid virus (although it has never yet been properly isolated). It is to say that the Covid phenomenon, when presented to us as a medical problem by our politicians and media, makes no sense. It is only when it is taken as a major political instrument for the enslaving of mankind that it makes perfect sense, and then one sees that it comes not just from our puppet politicians and media, but from their far more sinister puppet-masters, the Judeo-Masonic power that has created the modern world to fight against God. Along these lines runs the promised second half of Whiting’s article –

Managing the “pandemic,” it seems, has taken over Britain and most of the world. However, Covid-19 is a nasty new species of influenza but it is not a pandemic. There are no bodies on the street. Funeral directors are not working overtime. Overall annual death rates have not risen significantly, if at all. Over 99% of those who catch the disease survive and the average age of death for those for whom it proves fatal is 82.

Mass vaccination, the supposed remedy for the crisis, is not a true remedy but rather a huge crime. People are being treated as guinea pigs to try out experimental “vaccines” that have adverse symptoms on a horrific scale. Lock-downs are designed not to curb the “pandemic” but to destroy small businesses and make the whole of society dependent upon big government and billionaires.

What is happening today has not sprung out of nowhere. The

plan for global governance has been maturing for more than a century. After World War 1, the locus moved from the British Empire to the USA. Financiers in New York supported both the Bolshevik Revolution and the rise of Hitler, with the intention of creating war and disruption which could only be resolved by the formation of a one-world government.

Machinery is now at work to divide and disrupt society. Those whose aim is to “build back better” want to knock everything flat first. **The attack by neo-Marxists and neo-Cons in the West on Christian belief and practice has been unrelenting. Their aim is to create a new kind of human being and they need to obliterate the old-fashioned benchmarks for how we should behave.** (no less! Emphases from E.C.)

10. We all have to do what we can to resist this New World Order that is threatening to sweep us into slavery. Hamlet – that Everyman figure created by Shakespeare at the dawn of the modern age – was not keen to rise to the challenge, but he knew that he could not shirk it:

*The time is out of joint. O cursed spite,
That ever I was born to set it right. (Hamlet, end of Act 1)*

When Whiting writes of the Covid phenomenon as “a huge crime” with “adverse symptoms on a horrific scale,” he is by no means exaggerating, as a mass of material on the Internet attests, for instance the admirable work being done by the German lawyer Reiner Fuellmich and his team. He is optimistic, but it is to be feared God’s punishment must run its course, otherwise we shall only return to our godless vomit.

Kyrie eleison.

(No couplet from E.C. – it cannot compete with Shakespeare)
